# Doctor's Note

**DATE: _____**

**ELF'S NAME: _____**

**The Elf above was examined at The Colony ER Hospital and has been diagnosed with a case of Reindeer Influenza. This form of flu can not be transferred to humans or pets, but precaution must be taken!**

**We order this Elf to one week of bed rest. They are not to move locations, fly to the North Pole, drink syrup, eat candy canes, dance, or partake in any mischief for seven days.**

**This Elf can still take notes during their recovery and report back to Santa Claus after one week of full rest.**

**SINCERELY,**

*Dr. Laseter*
